Redmond Town Center transformed the street down the middle of the center from the previous condition of a vehicular use street with sidewalks to a pedestrian-only European style pavilion. The walkway uses bollards and planters to clearly define the change of use from vehicular traffic, yet still maintains ingress for emergency and event vehicles.

With the increase in pedestrian and bicycle density, the use of a pedestrian walkway created an environment that is more inviting and encourages gathering and large community events.

The improvements included such things as additional benches, tables, chairs, umbrellas, an outdoor fireplace, wood decked seating areas, enlarging the center court fountain, shuffleboard and bocce ball courts, location for holiday skating rink, remodeled restrooms and more.

Redmond Town Center is striving to partner with more new and dynamic tenants that continue to grow the economy of Redmond by attracting the longwithstanding Redmond resident, the new Redmond transplant, the temporary stay workers and people from outside the community. This fresh look of 74th Street is a big step to show the changes that Redmond Town Center is making to be able to attract not only these guests but new dynamic tenants to Redmond.

#### **REDMOND TOWN CENTER** DEVELOPMENT

The Archer Hotel Redmond is a new seven story hotel with two levels of internal parking over the hotel lobby and below the four levels of rooms. Guests can enjoy 160 luxe guest rooms and suites, a lively cocktail bar and patio, and signature amenities.

The hotel ground floor is designed to be very transparent with a great amount of floor to ceiling glass. The use of a large glass "garage door" allow the hotel to open the lobby and bar areas up to the outside.

The hotel features meeting rooms, event rooms, an interior pool and an exercise room.

The Talisman mixed-use multifamly project includes 286 units and 9,000 SF of retail space in a luxury mixeduse multifamily project in the Redmond Town Center mixed use lifestyle center. The project brings the first residences to the center, located near Microsoft 's world headquarters. Lowe worked with ownership to develop project elements that enhance the retail center and appeal to the high tech workforce.
